ABSTRAK

Penelitian ini bertujuan untuk mengetahui pengaruh *self-efficacy*, lingkungan keluarga, dan lingkungan perguruan tinggi terhadap minat berwirausaha mahasiswa Pendidikan Teknik Sipil dan Perencanaan, FT UNY.

Pendekatan penelitian ini adalah pendekatan kuantitatif dengan menggunakan populasi mahasiswa jurusan Pendidikan Teknik Sipil dan Perencanaan sebanyak 92 mahasiswa, Fakultas Teknik, Universitas Negeri Yogyakarta angkatan 2015/2016. Teknik penentuan sampel menggunakan *simple random sampling*. Data dikumpulkan dengan kuesioner yang telah diuji validitas dan reliabilitasnya. Teknik analisis data menggunakan regresi berganda.

Hasil penelitian menunjukkan bahwa: (1) terdapat pengaruh positif *self-efficacy* terhadap minat berwirausaha mahasiswa Pendidikan Teknik Sipil dan Perencanaan, FT UNY, dibuktikan dengan nilai t_{hitung} 41,25% > 19,93%, signifikansi 0,000 < 0,05; dan koefisien regresi sebesar 41,8%; (2) terdapat pengaruh positif lingkungan keluarga terhadap minat berwirausaha mahasiswa Pendidikan Teknik Sipil dan Perencanaan, FT UNY, dibuktikan dengan t_{hitung} 21,63% > 19,93%, signifikansi 0,034 < 0,05; dan koefisien regresi sebesar 20,3%; (3) terdapat pengaruh positif lingkungan perguruan tinggi terhadap minat berwirausaha mahasiswa Pendidikan Teknik Sipil dan Perencanaan, FT UNY, dibuktikan dengan nilai t_{hitung} sebesar 35,52% > 19,93%, signifikansi 0,001 < 0,05; dan koefisien regresi sebesar 35,3%; dan (4) terdapat pengaruh positif *self-efficacy*, lingkungan keluarga, dan lingkungan perguruan tinggi secara bersama-sama terhadap minat berwirausaha mahasiswa Pendidikan Teknik Sipil dan Perencanaan, FT UNY, dibuktikan dengan nilai F_{hitung} sebesar 23,232 > 2,74; dengan nilai signifikansi 0,000 < 0,05; dengan R^2 sebesar 48,3%.

Kata kunci: *Self-efficacy*, Lingkungan Keluarga, Lingkungan Perguruan Tinggi, dan Minat Berwirausaha

ABSTRACT

This study aims to determine the effect of self-efficacy, family environment, and university environment towards the interest in entrepreneurship in Civil Engineering and Planning students, of Faculty of Engineering, Yogyakarta State University.

This research uses quantitative approach with uses population in this study were students majoring in Civil Engineering and Planning, Faculty of Engineering, Yogyakarta State University class of 2015/2016. The sampling technique using simple random sampling. Data was collected by a questionnaire that had been tested for validity and reliability. The data analysis technique uses multiple regression.

The results showed that: (1) there was a positive effect of self-efficacy on the interest in entrepreneurship in Civil Engineering and Planning students, of Faculty of Engineering, Yogyakarta State University, as evidenced by the value of t_{count} of 41,25% > 19,93%; significance 0,000 < 0.05; and the regression coefficient of 41,8%; (2) there is a positive influence of the family environment on the interest in entrepreneurship in Civil Engineering and Planning students, of Faculty of Engineering, Yogyakarta State University, as evidenced by the value of t_{count} of 21,63 > 19,93; significance 0.034 < 0.05; and the regression coefficient of 20,3%; (3) there is a positive influence of the university environment on the interest in entrepreneurship in Civil Engineering and Planning students, of Faculty of Engineering, Yogyakarta State University, as evidenced by the value of t_{count} 35,52% > 19,93%, significance 0.001 < 0.05; and the regression coefficient of 35,3%; and (4) there is a positive effect of self-efficacy, family environment, and university environment together on the interest in entrepreneurship in Civil Engineering and Planning students, FT UNY, as evidenced by the value of F_{count} of 23,232 > 2,74 with a significance value of 0,000 < 0,05; with R^2 of 48,3%.

Keywords: Self-Efficacy, Family Environment, University Environment, and Entrepreneurial Interest
